Schlage Residental: How to Order

Thank you for your order and continuing business. In order to expedite order processing, please include the following information on purchase orders:

- Schlage account number
- Product UPC numbers (if available)
- Quote number (if applicable)
- Specific keying requirements
    Note: Line quantities of keyed products must be divisible by KA quantities.
    Example: 20 locks ordered KA4 results in 5 groups of 4 locks keyed alike,
            however, 20 locks ordered KA3 is not divisible and results in order
            processing delays as Schlage seeks clarification

· Door handing
    How to identify door handing:
    Handing of all doors is determined from the exterior of the room's entrance.
    - If the hinge is on the left side of the door, the door is "left hand" (LH)
    - If the hinge is on the right side of the door, the door is "right hand" (RH)
    - To order a handed product, please specify LH or RH
    - To order a handleset, handing is still determined from the exterior of the door
    - We will use that information to determine the handing for the inside of the door
